

Maintain your equipment to prevent future problems and unwanted costs. Keep your cooling and heating system at peak performance by having a contractor do annual pre-season check-ups. Contractors get busy once summer and winter come, so it's best to check the cooling system in the spring and the heating system in the fall. To remember, you might plan the check-ups around the time changes in the spring and fall.

Accessory Lifetime Warranty

Carbon Valley Heating and Air warranties any accessory sold and installed by us with a lifetime parts warranty and as long as the customer maintains a maintenance plan for the life of the accessory.

This lifetime parts warranty does not cover any intentional or unintentional damage, weather damage, acts of nature, or wearable parts (filters, cartridges, batteries, and water panels). This lifetime parts warranty is fully transferable as long as the recipient maintains a maintenance plan with us.

Our Mission

Our mission at Carbon Valley Heating and Air is to have a strong and profitable company with healthy growth which provides knowledge, comfort, and solutions to customers and employees using efficient products, education, and dedication to our values.

Carbon Valley Heating and Air is focused on providing the highest levels of service to our customers to ensure satisfaction and safe operations.

The most expensive investment in your home is in the care of expert technicians who continue to stay up to date with National Standards for service and extensive training. Our technicians are North American Technician Excellence (NATE) and EPA certified. Our maintenance plans follow Energy Star Recommendations along with National Standards set by the ACCA.

We look forward to serving your family.

Enjoy special pricing and extended warranties with our Green & Clean Maintenance Plans.
